Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Monique Perdok Shonka on 10-13-2006.

The following changes have been made:

1) In the specification, page 1, line 7, "pending" has been deleted and replaced with --- now USP 7,105,561 ---

2) Claims 1 and 2, in each instance the variable "n" (appearing as a subscript under the moiety "R⁶" at the lefthand side of the structural formula) has been deleted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not fairly suggest, teach or disclose the instantly claimed methods for treating leukemia. Moreover, Applicant has demonstrated that when the claimed

Art Unit: 1614

plasma levels are attained the instant compounds are effective in sensitizing extant cancer cells, which is contrary to the expectation of the prior art that such compounds would only have chemopreventive activity.

The examiner also notes that, as is clear from the prosecution history, that the term “about” in claims 1 and 2 refers only to the lower limit of 200 uM, and not the upper limit of 600 uM. (This is because the latter value finds support only in the originally filed drawings, which do not use the term “about”).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
